

27 March 2020

Dear all

**URGENT NEWSFLASH FOR RMI MEMBERS WITH WEBSITES**

As we start the first day of lockdown, keeping our employees and all of our members safe and informed remains critical. We have just been advised by Stella Ndabeni-Abrahams, the Minister of Telecommunications and Digital Technology, that all Internet sites operating within a .za landing page must publish the COVID link [www.sacoronavirus.co.za](http://www.sacoronavirus.co.za) effective immediately.

Please could you urgently ensure that your website is compliant with the new regulation and notify your website provider accordingly.

There is so much fake news and clutter across the airwaves at the moment, it is better we all draw from the official websites to avoid panic. Our members can then access the correct verified information from the official Department of Health resource centre.

We have attached a copy of the Regulations if you would like to refer to the documentation.

We once again thank you for your support during these challenging times.
